United States

Date posted
October 7, 2024

Description

We are looking for a Finance IT Solutions Analyst to drive efficiency and security in our finance operations. You will design and manage digital banking platforms and fraud detection systems, ensuring they meet regulatory requirements and enhance overall financial operations.

Responsibilities

- Develop and maintain digital banking platforms and fraud detection systems.
- Ensure systems comply with regulatory requirements and industry standards.
- Analyze financial data to identify trends and potential security threats.
- Collaborate with finance teams to enhance IT solutions and streamline processes.
- Provide technical support and system upgrades as needed.

Qualifications

- Bachelor’s degree in Computer Science, Finance, or related field.
- Experience with digital banking platforms and fraud detection systems.
- Strong knowledge of financial regulations and compliance requirements.
- Excellent analytical and problem-solving skills.
- Effective communication and collaboration abilities.

Preferred Qualifications:

- Certifications in financial IT solutions or cybersecurity.
